

## Lista e plotë me 53 ndeshjet e dyshuara të Skënderbeut sipas BFDS.

*(Shënimet në shqip dhe rezultatet e ndeshjeve janë shtuar nga autori i këtij podcasti, pjesa tjetër është sipas origjinalit në anglisht në vendimin e Apelit të UEFA-s të datës 1 qershor 2016.)*

10 ndeshjet më të dyshuara pjesë e grup-listës së parë sipas akuzës së UEFA-s.

- UEFA competitions matches (Ndeshjet në kompeticionet e UEFA-s):

**1. Uefa Champions League 2015/2016 (21/07/2015) Crusaders FC vs. KF Skënderbeu (3-2):** Conclusion BFDS Match-report: It is suspected that Skënderbeu manipulated the closing portion of the match once their progress to the next round was already secure, i.e once they led 1:2 (6:2 on aggregate) they could deliberately conceded goals in the closing period without risking their progress in the competition. Such manipulation is very opportunistic but also is clearly premeditated.

**2. Uefa Champions League 2015/2016 (25/08/2015) NK Dinamo Zagreb vs. KF Skënderbeu (4-1):** Conclusion BFDS Match-report: The profit for this criminal set-up must once again have been huge. There were absolutely no sportive or betting reasons why bettors would place such extraordinary amounts of money on Skënderbeu to concede another goal as betting against severe time constraints is of course completely illogical, suggesting Skënderbeu were ready to exploit the match for corrupt betting purposes whenever the opportunity presented itself, indicating an overwhelming evidence for a premeditated and carefully planned scheme.

**3. Uefa Europa League 2015/2016 (22/10/2015) Sporting Club de Portugal vs. KF Skënderbeu (5-1):** Conclusion BFDS Match-report: there is substantial evidence to support the conclusion that this match was targeted for betting related manipulation. It strongly bears the hallmarks of other highly suspicious matches, and although the suspicious betting only produced mixed results, this match was clearly targeted for the purpose of generating corrupt betting profits.

**4. Uefa Europa League 2015/2016 (10/12/2015) KF Skënderbeu vs. FC Lokomotiv Moskva (0-3):** Conclusion BFDS Match-report: Extremely suspicious live betting for at least three and two goals to be scored. Further highly suspicious live betting for KS Skënderbeu to lose by at least two goals. Extremely questionable defensive performance of KS Skënderbeu, in particular Bajram Jashanica. Highly suspicious history of KS Skënderbeu. In summary, there

is overwhelming evidence that this match was manipulated for betting purposes in a precise, orchestrated manner, with corrupt betting profits generated as a result.

- Domestic matches (Ndeshjet në kompeticionet vendase):

1. **12/12/2010: Skënderbeu vs. Shkumbini (1-0):** Conclusion BFDS Match-report: Given that both the pre-match support for Shkumbini + 1,5 (goals HCP – KD) and the live (betting – KD) support for KS Skënderbeu -0.75 (goal HCP – KD) were both successful (at least partially), with no apparent justification for the switch in betting opinion this match is considered highly suspicious and most likely manipulated.

2. **06/02/2011: KS Kastrioti vs. Skënderbeu (0-0):** Conclusion BFDS Match-report: To conclude, there is substantial evidence to support the conclusion that this match was targeted for betting-related manipulation. It strongly bears the hallmarks of others highly suspicious matches, and although the betting ultimately proved unsuccessful, this match was clearly targeted for the purpose of generating corrupt betting profits.

3. **15/04/2011: KS Dinamo Tirana vs. Skënderbeu (2-3):** Conclusion BFDS Match-report: In summary, there is overwhelming evidence that this match was manipulated for betting purposes in a precise, orchestrated manner, with corrupt betting profits generated as a result.

4. **31/01/2015: Skënderbeu vs. KF Laçi (0-0):** To conclude, the betting on this match is considered highly suspicious and bears all the hallmarks of other suspected manipulated matches. With the betting ultimately proving unsuccessful, this match is almost certainly a failed attempt at manipulation.

5. **16/10/2015: Skënderbeu vs. KS Teuta (2-2):** To conclude, there is substantial evidence to support the conclusion that this match was targeted for betting related manipulation. It strongly bears the hallmarks of other highly suspicious matches, and although the betting ultimately proved unsuccessful, this match was clearly targeted for the purpose of generating corrupt betting profits.

6. **22/11/2015: Skënderbeu vs. Terbuni Puke (4-0):** Conclusion BFDS Match-report: In summary, there is overwhelming evidence that this match was manipulated for betting purposes in a precise, orchestrated manner, with corrupt betting profits generated as a result.

Ndeshjet e grup-listës së dytë sipas akuzës së UEFA-s:
